Table Two Economic Indicators

Table Two -2: Household Income

Income Summary: Household Income	Agregate Income		Households		Average Income/Household	
	Estimate	Margin of Error	Estimate	Margin of Error	Estimate	Margin of Error
Total Household Income	$95,012,786,900	$1,311,087,636	738,131	3,598	$128,721	$1,884
Householder 45 to 64 years:	$33,554,795,300	$744,704,626	245,484	2,368	$136,688	$3,308
Householder 25 to 44 years:	$45,980,963,500	$935,275,140	310,266	2,719	$148,199	$3,282
Householder 25 to 64 years:	$79,535,758,800	$1,195,543,628	555,750	3,606	$143,114	$2,343
Householder 65 years and over:	$13,627,319,200	$458,714,949	150,707	1,629	$90,423	$3,197
Age group as a percent of . . .	Total Income(1)		Total Households(2)			
	Estimate	Margin of Error	Estimate	Margin of Error		
Persons Ages 45 to 64,	35.32%	0.92%	33.26%	0.36%		
Persons Ages 65 and over,	14.34%	0.52%	20.42%	0.24%		
Proportional difference in income:	Average income					
	Estimate	Margin of Error				
ages 45-64 as % of total 25-64:	42.19%	1.13%	(3)			
between ages 45-64 and 25-44:	72.98%	2.20%	(4)			

Notes:

(1) Income as householders in the age-group as a percent of all householders

(2) Householders in the age-group as a percent of all householders

(3) that is, Persons in the older 50% of the 25 to 64 age cohort earn over 00% of the total income in that cohort.

(4) that is, Persons ages 45 to 64 have income that is -100% greater than persons agers 25 to 44

County Data Book

New York County

Table Two Economic Indicators

Table Two-3: Volunteering in New York State

Notes

(1) Data presented for numbers of volunteers is for ages 16 and over.
Data presented for numbers of older adult volunteers is for ages 55 and over.

(2) Data for total hours and value of service are obviously heavilly rounded estimates.
Computing the values for certain cells from those data (e.g., hours per resident) do not equal the published data, but are within 0.5 to 2.0 percent.

(3) The ACS 2012 One-Year Estimates, used for the State estmates, are the year closest to the 2013 volunteer data for which Census Bureau data are available.
The ACS 2012 Five-Year Estimates must be used to obtain data for all 62 NYS counties.

(4) Data from previous years indicate that the hours per volunteer for the ages 65 to 74 cohort is apporximately 890 hours (17 hours per week).

*** By the Census Bureau, the estimate is "controlled"; therefore, "A statistical test for sampling variability is not appropriate."
