

MODULE 8: ELDERLY PHARMACEUTICAL INSURANCE COVERAGE (EPIC) PROGRAM

Objectives

Below are the topics covered in Module 8: Elderly Pharmaceutical Insurance Coverage (EPIC) Program. HIICAP counselors will learn about EPIC and how it works with Medicare Part D.

Assisting people with Medicare by informing them about the New York State EPIC Program can be very important. For more information about Medicare Part D, see **Module 6, *Medicare Prescription Drug Coverage (Medicare Part D)***.

<https://aging.ny.gov/HealthBenefits/Notebook/Modules/Mod6.pdf>

At the end of this module are the Study Guide Test and Answer Key.

WHAT IS ELDERLY PHARMACEUTICAL INSURANCE COVERAGE (EPIC)?

- EPIC is a New York State prescription program that helps eligible seniors pay for their prescription drugs **after any Medicare Part D deductible is met**. EPIC also covers approved Part D excluded drugs.
- EPIC covers almost all prescription medicines (including brand name and generic drugs) as well as insulin, insulin syringes and needles.
- NYS Law requires all EPIC members to enroll in Medicare Part D drug plans. The two plans are used together with EPIC supplementing Part D coverage to help seniors save more on their prescriptions. If seniors are not eligible to join a Part D plan, they cannot receive EPIC benefits.
- EPIC provides secondary coverage of Medicare Part D covered drugs that participate in the New York State Drug Rebate program in all Part D stages **except the Part D deductible stage with some exceptions:**
 - Drug costs in the Medicare Part D deductible phase cannot be applied to the EPIC deductible.
 - EPIC covers many Part D excluded drugs (e.g. prescription vitamins and prescription cough and cold preparations).
 - EPIC does not provide temporary coverage for any drugs that are not covered by Medicare Part D while the doctor is pursuing an appeal.

EPIC: NEW YORK STATE'S SENIOR PRESCRIPTION PROGRAM

EPIC is a New York State senior prescription program which currently benefits more than 300,000 New York State residents. Seniors are eligible to join EPIC if they are 65 or older, live in New York State and have annual income up to \$75,000 if they are single or up to \$100,000 if they are married. Seniors with a Medicaid spend-down, or who are enrolled in either the Medicare Savings Program or a Medicare Part D drug plan are eligible to join EPIC provided that they also meet the age, residency and income requirements. But, seniors who receive full Medicaid benefits are not eligible.

Seniors must also join a Medicare Part D prescription plan to use EPIC as supplemental coverage to pay for drug costs **after any Medicare Part D deductible is met**. While more than 300,000 seniors are currently enrolled in EPIC, many more are eligible and could be saving more money. Encourage seniors you counsel to learn about and consider joining the EPIC program.

Please note: Individuals with disabilities who receive Medicare and are not yet 65 years old are not eligible for EPIC coverage. Be aware that seniors who meet any of the following conditions should be encouraged to investigate EPIC:

- Are enrolled in a Medicare Part D drug plan and need help paying for drugs that are also participating in the NYS Drug Rebate program **after any Medicare Part D deductible is met**.
- Are receiving Extra Help.
- Are on a Medicaid spend-down.
- Are enrolled in the Medicare Savings Program (NYS is paying for their Medicare Part A and/or Part B premium).
- Have no retiree health insurance plan.
- Have a retiree health insurance plan that is a Medicare Part D plan or have retiree coverage and are eligible to join a Part D drug plan. Seniors should contact their benefits department.
- Have no Medicare supplement insurance and are considering purchasing a private Medigap policy that enables them to also enroll in a Part D drug plan.
- Are enrolled in a Medicare Advantage Plan (HMO, PPO or PFFS) with Part D.
- Have high out-of-pocket prescription drug costs and are enrolled in Part D.
- Need to change Part D plans or pick up Part D for the first time, outside of the Medicare Annual Enrollment Period.

Applying for EPIC

Applying for EPIC is very simple. Eligible seniors can enroll at any time during the year. The senior completes the application, which includes reporting their previous calendar year household adjusted gross income, including Social Security income (without Medicare Part B premiums). The program requires that the member sign and complete the application. Verification of date of birth and income may be required at a later time if the information cannot be verified through Social Security Administration or NYS Tax Department. **Note:** Married couples must report joint annual income, even if only one spouse is applying for EPIC. Enrollment applications are available in English, Spanish, Arabic, Chinese (simplified), Haitian Creole, Italian, Korean, Polish and Russian.

NYS Law requires EPIC members be enrolled in Medicare Part D prescription drug plans.

However, seniors do not have to be enrolled in a Medicare Part D plan before applying for EPIC but they must enroll in a Part D drug plan before they can receive EPIC benefits. There are no exceptions to this requirement.

Enrollment in EPIC provides seniors with a Special Enrollment Period (SEP) to join a Part D drug plan at any time of the year. Since EPIC is a State Pharmaceutical Assistance Program (SPAP), members can also use this SEP to change their Part D drug plan one time during the year.

EPIC’S TWO PLANS

When a senior enrolls in EPIC they will either have to pay a fee or meet a deductible. Determination of what plan a senior is enrolled in is based on their previous year’s income and their current marital status.

EPIC’s Fee Plan

The Fee Plan is available to single seniors with annual income up to \$20,000 if single, or \$26,000 joint annual income if married. With the Fee Plan, there is an annual fee, which will be billed to the senior on a quarterly basis, with the option to pay annually, if desired. Seniors enrolled in the Fee plan will pay the EPIC co-payment based on the allowed drug cost not paid by Part D (after any Part D deductible has been met). When used with their Medicare Part D plan, seniors save more on the cost of their prescriptions. The amount of the annual fee the senior pays is based on their previous year total adjusted gross income and current marital status as shown below.

EPIC’S DEDUCTIBLE PLAN

Effective 4/1/2014, eligible income brackets were expanded from \$35,000 to \$75,000 for singles and from \$50,000 to \$100,000 for married couples. The new income brackets were added to existing ones and current EPIC members were not impacted. All other program requirements remained the same.

Seniors with annual income ranging from \$20,001 to \$75,000 if single or \$26,001 to \$100,000 joint annual income if married (and living together, as opposed to having a spouse in a nursing home, etc., then the person in the community counts as single) are enrolled in the Deductible Plan. With the Deductible Plan there is no annual fee to join. Rather than pay a fee, enrollees meet an EPIC deductible. This means that EPIC is a free safety net to any senior in this income range. Their Part D co-pays are applied to their EPIC deductible. After the EPIC deductible is met, enrollees pay only the EPIC co-payment on their prescription purchases for the rest of the calendar year. Deductible enrollees should show the pharmacist their EPIC identification card each time a prescription is purchased. The pharmacist will notify EPIC of each purchase. When the deductible amount is met, EPIC will let the pharmacist know right away that the enrollee can start saving on their prescription purchases. The amount of the deductible is based on the senior’s income for the previous year and current marital status as shown in the chart below. **Please note that Deductible Plan members cannot apply drug costs for medications purchased in the Medicare Part D deductible phase to their EPIC deductible.**

Deductible plan members with income between \$20,001 to \$23,000 single or \$26,001 to \$29,000 married have to meet the annual Deductible shown below because EPIC pays their Medicare Part D drug plan premiums each month. Deductible plan members with incomes over \$23,000 single or \$29,000 married must pay their Medicare Part D plan premiums, but their Deductible is lowered by the annual cost of a Medicare Part D basic plan.

EPIC SENIORS ENROLLED IN MEDICARE PART D DRUG PLANS

- The EPIC program is used to supplement Medicare Part D drug plan coverage in order to provide greater savings. When selecting a Medicare Part D plan, seniors should keep in mind that their prescription must be on the Part D Plan formulary and participating in the NYS rebate program because EPIC is the secondary payer that can help lower their prescription cost. Seniors who are struggling with their Medicare Part D plan selection can call the EPIC Helpline for assistance as a last resort. Medicare Part D is primary coverage, and therefore, must be used first. EPIC coverage will supplement Medicare Part D coverage to provide seniors with greater savings. Seniors should present the identification cards for both their Medicare Part D drug plan and EPIC to their pharmacists. After any Part D deductible is met, any remaining drug costs not covered by Medicare can be submitted to EPIC for additional savings. The amount of the drug that is not covered by the Medicare drug plan will be used to determine the EPIC co-payments. This will usually result in a lower cost than using Part D alone. Members with an EPIC deductible will have Part D copays applied to their EPIC deductible. EPIC also covers approved Part D excluded drugs.
- EPIC pays the Medicare Part D premium up to the cost of a basic (benchmark) Part D drug plan for members with income up to \$23,000 single or \$29,000 married. Those who have chosen to enroll in enhanced plans will be responsible for any additional premium amount each month. EPIC members in the Deductible plan with higher incomes are required to pay their monthly Medicare Part D drug premiums. To provide premium assistance, EPIC reduces their EPIC deductibles by the average yearly cost of a basic (benchmark) Medicare drug plan.
- EPIC enrollees can be assured of the following:
 - EPIC will continue to exist to ensure that seniors receive the drugs they need.
 - Using Medicare Part D and EPIC together will provide seniors with maximum prescription coverage and savings.
 - EPIC coverage will supplement the Medicare benefit.
 - After Medicare pays, any remaining prescription costs not covered by Medicare can be submitted to EPIC by the pharmacy.
 - By using Medicare and EPIC together, seniors will pay the lowest possible co-payment and receive maximum coverage.
 - The EPIC program will save money when the federal Medicare benefits are used, which will help the State to continue to provide the additional EPIC benefits.

EXTRA HELP FROM MEDICARE CAN HELP EPIC SENIORS SAVE EVEN MORE

EPIC seniors with limited income and resources (assets) may be eligible for Extra Help from Medicare to help pay for Medicare drug plan premiums and co-payments. The level of Extra Help provided depends on the senior's amount of income and resources. Seniors must be enrolled in a Medicare drug plan to benefit from Extra Help and they must use a pharmacy that participates in both their Medicare drug plan and EPIC in order to coordinate benefits.

- **EPIC Seniors Approved for the Full Extra Help** will pay as little as \$3.40 for generic and \$8.50 for brand name drugs in 2019. They will not have to pay any Medicare premiums (in most cases) because both Medicare and EPIC will pay up to the average basic (benchmark) cost of a Medicare drug plan each month. They will not have to pay any EPIC fee (premium).

- **EPIC Seniors Approved for Partial Extra Help with the Full Premium Subsidy** will have (up to) an \$85 Medicare Part D deductible (2019) and a Medicare coinsurance of 15 percent. They will not have to pay any Medicare premiums because both Medicare and EPIC will pay up to the average basic (benchmark) cost of a Medicare drug plan each month.
- **EPIC Seniors Approved for Partial Extra Help with the Partial Premium Subsidy** will have (up to) an \$85 Medicare Part D deductible (2019) and a Medicare coinsurance of 15 percent. They will also receive a 25%, 50% or 75% premium subsidy from CMS toward the benchmark amount of \$ 39.33 (2019) and EPIC will pay any remaining balance up to \$ 39.33. (2019) The member would still be responsible for paying their EPIC premium as well.

For more information about Extra Help with drug plan costs, see Module 6, *Medicare Prescription Drug Coverage (Medicare Part D)*.

EPIC Enrollees with Limited Incomes are Required to Provide Additional Information to EPIC

EPIC members with low-income who have not already applied for Extra Help are required by law to provide EPIC with asset and other necessary information to determine if they qualify for the Medicare Part D benefit – Extra Help. EPIC will send current and new enrollees a Request for Additional Information form that they must complete and return as a condition of eligibility to receive EPIC benefits. EPIC will use the collected information to apply to the Social Security Administration (SSA) for the subsidy on the enrollees' behalf.

Enrollees must complete, sign and return the Request for Additional Information form from EPIC in order to keep their EPIC coverage. Extensive outreach will be offered to encourage seniors to complete the application to avoid any disruption in their EPIC coverage.

As a result of a federal law, the Medicare Improvements for Patients and Providers Act of 2008 (MIPPA), any income-eligible senior whom EPIC assists in applying for Extra Help using the Request for Additional Information process automatically has their information sent by the Social Security Administration to the NYS Department of Health for consideration for a Medicare Savings Program (MSP) benefit.

EPIC and the Health Insurance Information, Counseling and Assistance Program (HIICAP) will assist EPIC seniors with filling out applications to apply for Extra Help. Seniors can call the HIICAP Helpline (1-800-701-0501) to request help in filling out the Request for Additional Information form.

Seniors with Medicaid Spend-down

Seniors receiving Medicaid who must meet a spend-down before qualifying for full Medicaid benefits can join EPIC if they are 65 or older and meet the income and residency requirements. Seniors should be aware that EPIC will affect their spend-down.

Seniors in the Medicare Savings Program (QMB, SLMB, QI-1)

EPIC enrollees approved for (QMB, SLMB or QI-1) are deemed eligible for the Medicare Extra Help full premium subsidy. When they are enrolled in a Medicare Part D drug plan, they are not required to pay EPIC fees.

Seniors already enrolled in a MSP (who are receiving assistance from NYS to pay their Medicare Part A and/or Part B monthly premiums) can enroll in EPIC if they are 65 or older and meet the income and residency requirements. These seniors are automatically eligible for the Extra Help full premium subsidy from Medicare and premium subsidy from EPIC. Once enrolled in a Medicare drug plan, these seniors will pay no Medicare premium. Their Medicare Part D drug plan will be their primary drug coverage and EPIC will provide secondary drug coverage for brand name drugs reducing the \$8.50 co-payment to \$3.00 using EPIC, or reducing the \$3.40 co-payment for a generic drug to \$3.00 using EPIC. They will not have to pay any EPIC fees.

Pharmacies Participating in EPIC

Seniors must purchase their prescriptions at a pharmacy participating in EPIC in order to use their EPIC coverage. Almost all pharmacies in New York State participate in EPIC. If the Part D plan has an out-of-state mail order option and the drug the senior needs is covered by Part D they may be able to use that mail order service to fill their prescription. Seniors can call the EPIC toll-free Helpline at 1-800-332-3742 to inquire if their pharmacy is participating in EPIC. Prescriptions purchased at a non-participating pharmacy will not be covered.

Part D Premium Assistance

EPIC pays the Medicare Part D premiums for members with income up to \$23,000 single or \$29,000 married. Those with higher incomes must pay their Part D plan premiums. To help them pay, EPIC lowers the EPIC deductible by the average annual cost of a benchmark Medicare drug plan. Deductible Plan members with income ranging between \$20,001 - \$23,000 single or \$26,001 - \$29,000 married do not receive a lower EPIC deductible because EPIC is paying their Part D plan premiums.

Did You Know? Recent widows who apply for EPIC need only report their own previous year income including one-half of any of any interest from joint accounts.

Important Note: EPIC is a New York State program and is not affiliated with any private insurance companies or their agents. EPIC benefits are provided by New York State and are not related to any private Medigap or any other insurance policies. Private insurance agents do not represent the EPIC program. EPIC insurance cannot be marketed by agents of private insurance companies in order for them to sell private insurance policies. Seniors that receive unwanted telephone solicitations or home visits from private insurance agents that use EPIC coverage to encourage them to purchase private insurance should report the name of the agent or the insurance company to the EPIC Helpline at 1-800-332-3742.
