

Sepsis: 4 Signs

1

Temperature: high or low temperature.

2

Infection: sepsis happens because of infection, even from a small cut or scrape.

3

Mental change: confusion, mental decline, tiredness, or slurred speech.

4

Extreme pain or discomfort: illness, shortness of breath.

Sepsis is a **life-threatening condition**. It can happen to **anyone**.

If you have any combination of these symptoms, get medical help and ask: "**Could it be sepsis?**"
